<input type="checkbox"/> First Time Complaint Repeat Complaint	List Noxious Weeds Present On Property
Property Owner Name	Phone Number For Property Owner (if known)
Address	Additional Information:
City State Zip Code	
Have You Spoken With the Landowner About the Complaint?	

The Boone County Weed Commission is tasked with upholding sections of Iowa Code that pertain to the destruction of noxious weeds within the county. The Boone County Board of Supervisors appoints a Weed Commissioner annually to carry out these duties. If noxious weeds are found on your property, they are required by law to be destroyed. This responsibility falls to the landowner. If noxious weeds are not destroyed by mowing, burning or spraying a complaint may be filed. If a complaint is filed, you will be served a notice and given 5 days to destroy the noxious weeds. If this is not done, the Boone County Weed Commission is tasked with destroying the weeds. The cost of this destruction is then billed to the landowner. Boone County is required by law to post a list of noxious weeds annually. This is done in the spring and can be found in the local paper.

Thank you for contacting the Boone County Weed Commission. We will address your complaint in a timely manner.
